E02 L5 socket

E06 BNC T-piece

E07 BNC to L5 connector

E08 4 pin connector and cable

E09 7 pin connector and cable

GST supplies electrical connectors both to allow consumers to have a surplus but primarily because they are consumables and prone to damage.

Repeated handling of the cables and sensors will weaken the inserts, leading to cracks or loosening; once this insulation is damaged it can cause interference thereby invalidating data.
